One correction to minutes from May 25, 2022. **Murphy moved to approve the consent agenda with a second by Milliken. Motion passed by consensus.**

8. Business

- A. **Non-motorized Transportation Update** (Susie Shipman) Jennifer Cram, Director of Planning gave the update. The non-motorized transportation planning commission grew out of the master planning committee and became formalized in January, 2022. In April there was a meeting with MDOT officials and their engineers to discuss both short and long terms safety improvements along the M-37 corridor. In May we met to discuss some immediate improvements as part of the M-37 repaving project. We focused on the highest cycling pedestrian user convergences to be implemented as part of the resurfacing project. In the packet is the share the road signage MDOT will be installing along 3 sections with one facing north and one facing south. Chown specifically talked to MDOT about placing signage near Archie Park. The request was to have pedestrian crossing signage painted on the road pavement. In order for that to happen, it would need to be ADA approved at both ends. Currently, that presents some issues. However, MDOT will place signage warning there are pedestrians in the area about 1,000 feet from the entrance to Archie Park. The non-motorized transportation committee is looking for approval from the parks commission to approve the pedestrian safety signage near Archie Park as recommended by MDOT.

Milliken moved to approve the 2 types of signs, the pedestrian ones for Archie Park and share the road sign for walkers and bikers throughout the rest of the peninsula with a second by Dahl. Motion passed by consensus.

- B. **Prioritization of Park Projects** (Skurski)

- a. **Current Budget Status**-the first item is to look at the maintenance budget. The biggest expense has been the removal of dead trees at Bowers Harbor for \$3,500. We now have \$22,000 of spending capabilities. Recommends making a list and a timeline of large projects and presenting everything to the town board at one time. This can act as a financial timeline and prioritize the projects by year. The last survey with LIAA showed bathrooms at Bowers Harbor was among the top requests.
- b. **Tennis Court Resurface** The tennis court needs resealing. The cracks could be cleaned with compressed air and then resealed. This should buy us several years and cost between \$4-6,000

David Shambaugh 18329 Whispering Trail- I am a seasonal resident of 70 years and my family has been coming here since 1912. Just to add to the tennis court discussion, we have a private tennis court and I am the chairman of the tennis association. I have been dealing with these questions of sealing, filling cracks, and resurfacing for over 25 years. Even though I am here to talk about basketball, the tennis courts just need resealing in my opinion and repainting of the lines. That should buy you 5-7 years. I have no knowledge of pickleball and I am here to talk about the basketball court. The surface was put down about 25 years ago. The surface is cracked, weeds are growing in the cracks and the court is in dire need of replacing. The asphalt needs to be dug up and relaying new asphalt to specifications. That is called resurfacing as distinct from resealing. The current width of the existing court is too small and the length appears to be fine. Resurfacing will buy you at least 12 years if not more. The baskets themselves also need to be replaced. Everything in the park is top-notch, but the basketball court gets an F. If the court was brought up to standard, more people would use the court. I think you can go minimal by resealing the tennis court. The company we used was Sure Seal for our tennis court.

Ken Rabish 13383 Bluff Road- we have classes every Tuesday at 5:00 p.m. for beginners. I am here to answer a couple questions about the pickleball court project. We did get a grant from the Rotary for \$30,000. We are a 501c organization. We are raising money and have some large donors who are waiting to see what happens. Because of this the donated money has to go toward pickleball courts and nothing else. We are interested in continuing to move forward on this project.

Chown: if Molon Construction does pay for the new basketball court, does that change the situation?

Rabish: absolutely. Many donors have held back because they do not want their money going to build a new basketball court. We want to move forward if the basketball court issue can be resolved.

Zebell moved to reseal and re-line the tennis courts at Bowers Harbor Park for \$6,000 with a second by Milliken. Motion passed by consensus.

- C. **Archie Park Work Bee (Milliken)** Milliken- Bob Wilkenson wants to do the fencing and has purchased the materials. He is also installing the post and new life ring this week on the water side. I met with Parshall Tree Care Company yesterday. They said the beech trees do not need treating at this time. There are 9 dead trees of various sizes that are not safe and need to be removed. The cost is \$2,000. They will put some of the wood chippings under the swing sets. For \$2,425 they would stump grind the really big trees. They would also bring topsoil and grass seed for free. There is also an aggressive Russian oil tree they will remove. Parshall's schedule is about 6 weeks out. Elmers has dropped off gravel and will dropping off more. The asphalt from the dividing line on Center Road is going to be ground up and placed in the parking lot as well.

- D. **DTE Tree Grant Status (Skurski/Zebell)**

Skurski: Marge Achorn did a tremendous amount of work and got the DTE tree grant submission in on time. The trees would go to Bowers Harbor Park and Archie Park. The approximate grant is for \$3,800 with matching funds and/or volunteer time. The size of the trees required for this grant might not be the best fit for the township parks.

A discussion regarding what types of trees would be appropriate for all the parks and the size of trees took place.

9. Citizen Comments None

10. Board Comments

Skurski: Murphy helped push through a grant with Olesons to get the start of a path through the tree forest.

Chown: if any of you want to reach out to Senator Wayne Schmidt who told Manigold, Achorn, and myself at a breakfast meeting he would like to see some of the ARPA money to the hemlock trail at Pelizzari. That actually was the leverage we needed to get the Oleson's Foundation to make that grant.

Murphy: when we did the open house at the First Congregational Church at the base of the peninsula the pastor came out and told us they have 11 acres there that they would like to make more into a community resource with no obligation for being members or parishioners and they are interested in pickleball, community gardens, and a dog park. He would like to hear from people and have discussions.

Chown: yes, the pastor's name is Chad Oyers. I know him and he is a wonderful man. This could solve so many problems. It would be great to have a dog park.

Skurski: terms are up for serving on this board in August. I know my term is up and we will have to check if there are any others.

Murphy: I hope this group stays together as we have a good working relationship.

11. Adjournment Chown moved to adjourn the meeting with a second by Murphy. Approve by consensus.

Sadly, the issue with invasives. A continuous battle.

I mentioned to Dave that PNA has Autumn Olive back out (he was going to t/u with the Conservancy), at least there we have a chance to keep it under control.

Subject: Invasive removal at PNA

At parks meetings, we've discussed a volunteer day for invasive removal at PNA. Steve Lagerquist (conservancy) & I have been trying to find a date for months. We spoke today & set a date of August 3rd, 10-noon. We'll mostly focus on autumn olive, starting in the main parking lot.

Steve will try to make it a volunteer day for conservancy backers & I'll try for some of the PNA regulars. Just noting this in case others with parks would like to join in or if you know of folks who'd want to work on this.

I'll note that we've had one other work session at PNA for autumn olive removal in the past. Steve prefers the approach of removing the full root system with effective tools the conservancy has. Other techniques require successive chemical treatments. What I've

seen in areas where we did a good job of getting the roots, the bushes are gone for good. So it might be interesting to see this tool in use if you haven't.

Thanks.

I was looking on the township website for a contact about this, and saw that you are on the parks committee and listed as a contact for the Ridgewood and Murray Road trailheads. I went out to the Ridgewood trailhead for a hike the other day and the trails were quite overgrown. With the elevated tick risk, this makes the trails less suitable for walking. Does the township have plans to mow anytime soon?

Jeff, Kerry,

Thank you for your interest in the playground at Bowers harbor Park.

To bring you up to date.

Michele and I discussed some plans for the BH playground with a vendor in June. We are hoping to have a couple of layouts and cost estimates from him at our next Park meeting Wednesday July 27 at 7:00pm.

I will keep you in mind in order that you are notified if the item is on the gained - also on the townships webpage.

Subject: ARPA Funds - Bowers Harbor Park Playground

Greetings

I recently read in the OMP newsletter that you are looking for input on how best to direct ARPA funds. I know the list of priorities is endless but I strongly recommend that some funds be earmarked for a new playground at Bowers Harbor Park. This park is a crown jewel of Peninsula Twp, but quite frankly the current playscape situation is bordering on unsafe. I would gladly volunteer my time to help with researching new equipment and coordinating the installation.

Thank you for your time and consideration.

Bower's Harbor Park - 2022 - Option 1 - MIDeals

This quotation is subject to policies in the current GameTime Playground Catalog and the following terms and conditions. Our quotation is based on shipment of all items at one time to a single destination, unless noted, and changes are subject to price adjustment. Purchases to be supported by your written purchase order made out to GAMETIME C/O SINCLAIR RECREATION. **A 2.5% PROCESSING FEE WILL BE ADDED TO ALL ORDERS PAID VIA CREDIT CARD.**

Pricing: f.o.b. factory, firm for 30 days from date of quotation unless otherwise noted on quotation. Sales tax will be added at time of invoicing unless a tax exemption certificate is provided at time of order entry.

Payment terms: Net 30 days for tax supported governmental agencies. A 1.5% per month finance charge will be imposed on all past due accounts. Equipment shall be invoiced separately from other services and shall be payable in advance of those services and project completion. Retainage not accepted.

Shipment: Order shall ship within 12-18 weeks after GameTime's receipt and acceptance of your purchase order, color selections, approved submittals, and receipt of deposit, if required.

Shipment: Vistarope Net shall ship within 18-36 weeks after GameTime's receipt and acceptance of your purchase order, color selections, approved submittals, and receipt of deposit, if required. Port Congestion and transit time affect overall lead time and are impossible to predict.

Installation: Shall be by a Certified GameTime Installer. Customer shall be responsible for scheduling coordination and site preparation. Site should be level and permit installation equipment access. Purchaser shall be responsible for unknown conditions such as buried utilities, tree stumps, bedrock or any concealed materials or conditions that may result in additional labor or material costs. Payment terms for installation is Net 10 Days.

NOTE: PRICING DOES NOT INCLUDE ANY DAVIS BACON OR PREVAILING WAGE RATES UNLESS SPECIFICALLY IDENTIFIED ABOVE IN QUOTE. THERE WILL BE A BACKCHARGE FOR THE INSTALLATION TO BE DONE THROUGH FELT, PEASTONE, SURFACING, OR WOODCHIPS, UNLESS SPECIFICALLY LISTED IN ABOVE QUOTE.

Submittals: Our design proposal reflects the spirit and intent of the project plans and specifications. While some variations may exist between our quotation and the project design, the differences do not materially affect the intended use. GameTime designs and specifications are unique and not intended to be identical in all respects to other manufacturers. We shall submit for review and approval by the owner's representative detailed drawings depicting the equipment to be furnished accompanied by specifications describing materials. Once approved, these drawings and specifications shall constitute the final documents for the project and shall take precedence over all other requirements.

Exclusions: Unless specifically included, this quotation excludes all site work and landscaping; removal of existing equipment; acceptance of equipment and off-loading; storage of goods prior to installation; equipment assembly and installation; safety surfacing; borders and drainage provisions.
