

**Packet Addition
for June 11, 2024,
Township Board Regular Meeting**

Correspondence from Susan and Phil Tarczon

Hello Peninsula Township Board,

It has come to our attention that the Board is contemplating placing a Headlee rollback proposal on the November ballot to increase tax revenues for the Township. We also understand a consultant was hired by the Township to study the issue, but the results of that study are not yet available.

We strongly encourage the Board to hold off putting this proposal on the November ballot. It only makes sense to utilize the data we are paying for, which we can't do until the report is available. Also, as strong supporters of our hard-working Township government, we still want us collectively to be fiscally responsible. I would expect most Township residents would feel similarly and want to have a very good case made before we are asked to increase taxes on all of us.

Please wait until we have the report and

have more fully vetted this possible action with the residents. Thank you for your consideration.
