Also present: Randy Mielnik, John Cavanagh, EPIC-MRA

Began: 6:05 PM

This meeting was the second meeting of the Master Plan Steering Committee. It was noted that both Chad Hartley and Todd Oosterhouse had indicated schedule conflicts before the meeting. Three main discussion topics followed and included:

1. Discussion regarding comments received about the 2006 survey from committee members. These comments included potential questions to eliminate, questions to ask again (to see how attitudes may have changed), and new questions to ask. John Cavanagh offered summaries of comments received and substantial discussion followed. Issues about survey length, question structure and issue framing were also discussed.
2. There was additional discussion about the timing of the survey launch. It was noted that the draft survey should be reviewed by both the Planning Commission and Township Board (potentially in September). The actual survey activity would actually likely occur thereafter.
3. To maintain momentum, future meeting dates of August 5th and September 9th were discussed. A draft survey will be distributed before the next meeting (August 5th).
