METHODOLOGY

Live Operator Telephone Interview Survey

From September 26 through September 30, 2019, **EPIC ▪ MRA** administered live operator telephone interviews with 200 adult residents of Peninsula Township, Grand Traverse County, Michigan. Respondents for the interviews were selected utilizing an interval method of randomly selecting records of households of people who have commercially listed landlines, with 30% of the respondents obtained using available cell phone numbers.

In interpreting survey results, all surveys are subject to error; that is, the results of the survey might differ from those that would have been obtained had the entire population been interviewed. The size of the sampling error depends on the total number of respondents asked a specific question. The table on the following page represents the sampling error for different percentage distributions of responses based on sample size.

For example, when asked if they would support or oppose an existing township regulation that prohibits . . . *privately owned rural open spaces, farms and farm building, and bed and breakfast establishments, to be rented for events* . . . , 50% of all survey respondents reported they either “Strongly” or “Somewhat” supported the prohibition (Question 37). As indicated in the chart below, this percentage would have a sampling error of plus or minus 6.9%. That means, with repeated sampling, it is very likely (95 out of every 100 times) that the response percentage for that question for the entire population would fall between 43.1% and 56.9%; hence $50\% \pm 6.9$ percentage points.

EPIC • MRA SAMPLING ERROR BY PERCENTAGE (AT 95 IN 100 CONFIDENCE LEVEL)

Percentage of sample giving specific response

Online Solicitation Survey

In addition to the live operator telephone interview survey, the township also approved an online version of the survey to be offered to its residents and other stakeholders with a connection to the township. To accomplish this within the budget allocated for the project, all unique residential addresses in the county appearing on the Secretary of State's qualified voter file (a file listing all registered voters in Michigan) were compiled into a mailing list. This list was augmented with addresses supplied by the township assessor's office to include those not otherwise found on the Secretary of State file. Once the augmented list was compiled, postcards via first class mail were issued to the resulting approximately 3,800 addresses. The postcard, bearing the Peninsula Township logo, informed the recipient household of the reason for the communication, instructions regarding how to access the questionnaire online (which contained identical questions to the telephone survey questionnaire), and the phone number of EPIC ▪ MRA's Lansing, Michigan, office for assistance in navigating the online instructions or for assistance in obtaining a hard-copy version of the questionnaire.

In an attempt to retain the integrity of the results as well as adhere to the fundamental nature of the solicitation being for *survey research* as opposed to a tally of *voice votes*, a four-digit "User ID" unique to each address was also included on the correspondence, the entry of which was a prerequisite to completing the interview. Information in the mailing explained that the four-digit code could be used to complete the questionnaire by any adult member of the household. As is usually the case in this type of methodology, a review of the results revealed recipients adhered to the requests for data integrity contained in the postcard notice.

With the foregoing provided as methodological background, the online survey was open for participation from October 18, 2019, through November 6, 2019. In total, 980 usable responses were recorded for the postcard solicitation portion of the project.

PROLOGUE

For the purposes of this narrative analysis, the results from the 200-sample live operator telephone survey and the online version taken by permanent residents are presented unless noted otherwise.¹ This approach is taken to accommodate the fact that the characteristics of the two samplings are somewhat different, as is the margin of error. Whereas the telephone interview more closely approximates the demographic stratification of Peninsula Township than does the online version (e.g., age cohorts are closer to U.S. Census Bureau data from the telephone methodology), the online sampling of permanent residents consists of 749 usable responses, which carries a far lower margin of error (± 3.3 pts. vs. ± 6.9 pts.) than does the telephone survey.

It is also worth noting that the overall picture emerging from the two methodologies is essentially the same and that most of the individual results coming from the questions are quite similar. To the extent that there are differences between the two surveys, the age stratification and the fundamental differences between respondents who answer an invitation to actively participate in an online survey versus the more passive participation found in live operator-initiated interviews are responsible. That is, there is inherently greater interest in the topic exhibited by the somewhat older online respondents who take the time and trouble to participate in the survey compared to the relatively more passive participation of telephone survey respondents.

Throughout the following detailed analysis, reference is made to question numbers in the questionnaire. For ease of reference, the mailed version of the instrument is included as an appendix. This replica contains much of the information that was contained in the postcard notice, presents the language that was included in the online version, and includes the “skip” and “branching” instructions provided for the live telephone operator interviewers and embedded in the online formatting.

¹ A total of 980 usable online responses were submitted but 231 of these were from respondents who self-reported as not being permanent residents. There is very little variance between the results of the total on-line and the permanent resident online samplings.

EXECUTIVE SUMMARY

Peninsula Township is known for its desirable attributes, notable among them being its unique geographic location, its scenic views, and its rural character. The results of the latest citizen survey confirm that township residents continue to carefully guard the highly prized natural beauty of the place they call home and are wary of policy changes that may threaten its rural character and scenic views. Proof of this is found throughout both the telephone and online survey results.

In a question posed early in the interview, respondents were asked to identify which of several attributes they liked most about living in Peninsula Township. In both studies, the *Rural, quiet atmosphere* was the most popular response among many choices followed closely by *Scenic views* and the *Quality of the environment*. Looked at from the opposite angle, *Growth-Overdevelopment* and *Traffic-Congestion* topped the list of open-ended responses offered by respondents who believe the quality of life in the township has “Gotten worse” in the past few years.

Other evidence of the importance citizens place on the character of the township can be found in two batteries of questions presented early in the interview. The first battery asked respondents to assess the importance to be placed on various physical characteristics of the township, and the second battery asked about the amount of attention local government ought to place on certain of its several functions. In the case of assessing the importance of physical characteristics, the four items receiving a *Top Priority* designation level (as opposed to *Important, Neutral, and No Involvement*) from a strong majority of respondents involved protecting the bays, shorelines, viewsheds, and managing growth. As for opining on where township government could do *More* (as opposed to reporting *Enough* or *Too Much* being done), the strongest proportion went to a statement that urged, *Keeping as much of the rural character and historic landscape as possible*.

Perhaps the most direct expression of residents’ interest in maintaining the natural ambiance of the township is found in the results of a question forcing respondents to choose between local government policies designed to primarily foster economic growth or policies designed to preserve the fundamentally rural, undeveloped character of the area. More than eight

in ten respondents opted for the statement about preserving the existing character of the township even if that meant limiting economic growth opportunities. By contrast, the proportion opting to reduce agricultural and undeveloped acreage in favor of promoting economic growth failed to reach even double digits in either the telephone or online surveys.

Practical, albeit less direct, expressions of residents' preference for a rural setting are manifested in the series of questions concerning the township's purchase of development rights (PDR) program. Well over half of all respondents in both survey methods reported awareness that Peninsula Township currently has a taxpayer-funded PDR program, and well over half purport to have at least some familiarity with its provisions. In a hypothetical "vote" on renewal of the 2-mill tax dedicated to the program, unequivocal support for such a ballot proposal is found by better than a two-to-one margin. Moreover, the most salient reason behind supporters' sentiment is to . . . *generally control growth and prevent traffic congestion*. This seems to speak volumes to the depth of local support when contrasted with the high sensitivity to the local tax burden reported earlier in the interview.

There are other practical manifestations of respondents' preference for the undisturbed character of their locale found in the survey findings. For instance, approximately two-thirds report being satisfied with the township's current prohibition on short-term rental of residences; there is also majority opposition to exploring the relaxation of that policy. Similarly, more than six in ten residents report that strict enforcement of the township ordinance regulating the number of docks and hoists allowed is *Extremely* or *Moderately Important* to them. A majority in both survey methods oppose exploring the development of a mixed-use town center as generally described in the survey question.

Other topics explored in the survey also reinforce the satisfaction with the status quo. For example, there is strong opposition to expanding the scope of the existing noise ordinance to include lawn equipment and other homeowner tools. Similarly, with respect to Mission Point Lighthouse and its current volume of tourist visitation, there is overwhelming support for maintaining existing management policies. Notwithstanding consensus regarding the adequacy of existing township policies in a wide array of topics of interest to residents, there are a few areas where there is a closer division of opinion.

On the issue of easing existing limitations on the type of events wineries may host and the number of people who attend events that are permitted, comfortable majorities of respondents from both survey methodologies support the restrictions. However, on the question of whether the trajectory of growth in new wineries should be supported and sustained, the level of consensus diminishes. Indeed, in neither of the methodologies did these majorities fall outside the respective studies' margins of error.

When it comes to the issue of whether privately owned rural spaces and bed and breakfast establishments should be allowed to host events, the results are even less definitive than expanding the number wineries. In this case, a mere 50% plurality of phone survey respondents support the existing prohibition on events held at farms or other privately owned open spaces, and a bare 51% majority of online respondents oppose them. Obviously, greater discussion will have to be had on this issue to better define the extent to which, if any, the township alters the existing prohibition.

The closest division of opinion in both methodologies lies in the question of whether to regulate the storage of boats, docks, hoists, and recreational vehicles. A plurality of 50% to 44% of telephone survey respondents were opposed to the township adopting a regulatory ordinance concerning the storage of this type of equipment, while a 49% to 48% plurality of online respondents support such action. Even though the strength of sentiment in this regard is higher among those who oppose regulatory action, the overall close division of opinion on the issue suggests this is a topic the township will likely explore in greater depth.

One area where there is unequivocal support for a new initiative is in the development of a non-motorized transportation plan. More than three-quarters of respondents from both methodologies support this initiative and two-thirds of that total support is in the form of *Strongly* supporting such action. Fleshing out the specifics of such a plan will, of course, be a comprehensive process but the survey data clearly indicates support for pedestrian safety features in the way of signals, pavement markings, and signage along with attention to walking trails and bike paths.

Finally, and in keeping with residents' environmental awareness tempered with a desire for viewshed preservation, there is receptivity to the idea of some form of wind and/or solar

energy sourcing on the peninsula. Again, the survey only briefly touched on the issue, but the greatest receptivity is for small-scale systems serving a single property followed by systems capable of serving a limited collection of properties or a small neighborhood. The least preferred of the options is for utility scale systems integrated with a regional grid.

In sum, township residents are, by and large, content with the status quo. To the extent there is an expression of openness to changes, it reveals itself in policies directed at addressing growth, traffic congestion, and preservation of viewsheds. For long-term planning purposes, however, readers are invited to examine the detailed subgroup breakouts to the questions in the following section. There are some regularly occurring divergences of opinion on several policy change questions, many of which are based on the age, place of residence, gender, and presence of school-age children in the household of the respondent subset.

DETAILED ANALYSIS OF SURVEY RESULTS

Registered Voter Status – Q. 1

The first question in the interview asked respondents to report whether they were registered to vote in Peninsula Township.

Connection with the Township Q. 2

Respondents were next asked to select which of three offered options best described their connection with the township. The chart below illustrates the distribution of responses.

Direction of the Township – Q. 3

Respondents were asked, “Overall,” if they believe Peninsula Township is headed in the *Right Direction* or if it is going on the *Wrong Track*.

Telephone survey subgroups reporting “Wrong Track” in proportions significantly higher than 16% included:

- 35% Twp. Quality – Worsened
- * Small N-size

Online survey subgroups reporting “Wrong Track” in proportions significantly higher than 30% included:

- 60% Twp. Quality – Worsened
- 57% Financial management – Negative
- 45% Men 18-49
- 39% Taxes – Too high
- Utility easements – Top priority
- Post H.S.
- 38% Renewal vote – No
- Age 18-49
- 37% Tenure – 11-20 yrs.
- 36% Info source – Gazette
- 35% Info source – Word of mouth
- Residence – Mapleton north
- 34% Current PDR? – Yes
- Storage regulations – Oppose
- Town Center – Oppose

Quality of Life Trend – Q. 4

The options of *Gotten Better*, *Become Worse*, and *About the Same* were offered to respondents who were asked to give an assessment when thinking about the quality of township life over the past few years.

Telephone survey subgroups reporting “Gotten Worse” in proportions significantly higher than 17% included:

36% Twp. Direction – Wrong track*

* Small N-size

On-line survey subgroups reporting “Gotten Worse” in proportions significantly higher than 31% included:

62% Twp. direction – Wrong track

42% Financial management – Negative

40% Winery growth – Oppose

38% Utility easements – Top priority

Town Center – Oppose

Tenure – 20+ yrs.

37% Taxes – Too high

Relax winery limits – Oppose

Open space event ban – Support

Post H.S.

36% PDR Familiar – Yes

Men 18-49

35% Current PDR? – Yes

Storage regulations – Support

Info source – TC Eagle

Residence – Mapleton north

Why Worse? – Q. 5

Respondents opting for the “Become Worse” answer in the preceding question were asked to identify the single most important reason for saying so.

Telephone survey subgroups: With an N=34, subset analysis is unhelpful.

Online survey subgroups reporting “Growth/Development” in proportions significantly higher than 38% included:

- 56% Tenure – 6-10 yrs.
 - 50% Tenure – 1-5 yrs.*
 - 47% Twp. direction – Wrong track
 - Winery growth – Support
 - 46% Utility easements – Top priority*
 - 45% Age 18-49
 - 44% Relax winery limits – Support
 - 43% PDR familiar – Undecided
 - Tenure – 11-20 yrs.
 - Women
 - Employment – Full time
 - 42% Taxes – About right
 - Residence – Wilson south
- * Small N-size

Online survey subgroups reporting “Traffic” in proportions significantly higher than 37% included:

- 61% Twp. direction – Right direction
- 45% Utility easements – Top priority*
- Tenure – 20+ yrs.
- 44% Info source – TC Eagle
- Age 65+
- Men 50+
- 43% Relax winery limits – Oppose
- Employment – Retired
- 42% Storage regulations – Support
- Info source – Website*
- 41% Town Center – Oppose

Residence – Wilson south
Age 50+
 * *Small N-size*

Like the Most – Q. 6

All respondents were asked to select from a list of five options the characteristic that best captured what they liked most about living in Peninsula Township. Accommodation in both surveys was made for respondents volunteering a characteristic that was not part of the list that was offered.

Telephone survey subgroups reporting “Rural, Quiet” in proportions significantly higher than 30% included:

44% *PDR familiar – Unaware*
 43% *Intervene in Utility easements – Neutral/Not*
 41% *Residence – Mapleton north*
 36% *Current PDR? – Don’t know*
Men 50+

Online survey subgroups reporting “Rural, Quiet” in proportions significantly higher than 38% included:

53% *Residence – Mapleton north*
 47% *Open space event ban – Support*
 46% *Twp. quality – Worsened*
PDR familiar – Little
 45% *Winery growth – Oppose*
Town Center – Oppose
 44% *Relax winery limits – Oppose*
 43% *Storage regulations – Support*
Men 18-49

42% Twp. direction – Wrong track
 Utility easements – Top priority
 Info source – Gazette
 Post H.S.

Telephone survey subgroups reporting “Scenic Views” in proportions significantly higher than 29% included:

53% Intervene in Utility easements – Undecided
 43% Bay Access – Priority*
 42% Residence – Wilson south
 41% PDR familiar – Little*
 37% Age 50-64
 36% Women 50+
 35% Info source -- Mail
 * Small N-size

Online survey subgroups reporting “Scenic Views” in proportions significantly higher than 29% included:

41% Women 18-49
 40% Children at home – Yes
 Age 18-34
 39% Tenure – 1-5 yrs.
 38% Relax winery limits – Support
 37% Current PDR? – No
 PDR familiar – Unaware
 PDR renewal – No
 Residence – Wilson south
 35% Age 18-49
 34% PDR renewal – Undecided
 Winery growth – Support
 Storage regulations – Oppose
 Town Center – Support
 Employment – Full time
 33% Utility easements – Important

Telephone survey subgroups reporting “Air/Water” in proportions significantly higher than 16% included:

28% Twp. Quality – Worsened*
 24% Intervene in Utility easements – Neutral/Not
 Women 50+
 22% Twp. Quality – Improved*
 Financial Management – Positive*
 Taxes – About right
 * Small N-size

Online survey subgroups reporting “Air/Water” in proportions significantly higher than 14% included:

21% Bay access – Important
 19% Women 50+

Rate Township Job Performance – Q. 7

Respondents were asked to issue a “Positive” or “Negative” rating for the job Peninsula Township is doing in providing basic services. Gradations of *Excellent* and *Pretty Good* were offered for a positive rating, with *Just Fair* and *Poor* offered as gradations for a negative rating.

Telephone survey subgroups reporting “Negative” in proportions significantly higher than 15% included:

- 46% Twp. Direction – Wrong track*
- 33% Twp. Quality – Worsened*
- 26% Taxes – Too high
- 24% PDR renewal – No
- Age 50-64
- 22% Children at home – Yes
- 21% Town Center – Support
- * Small N-size

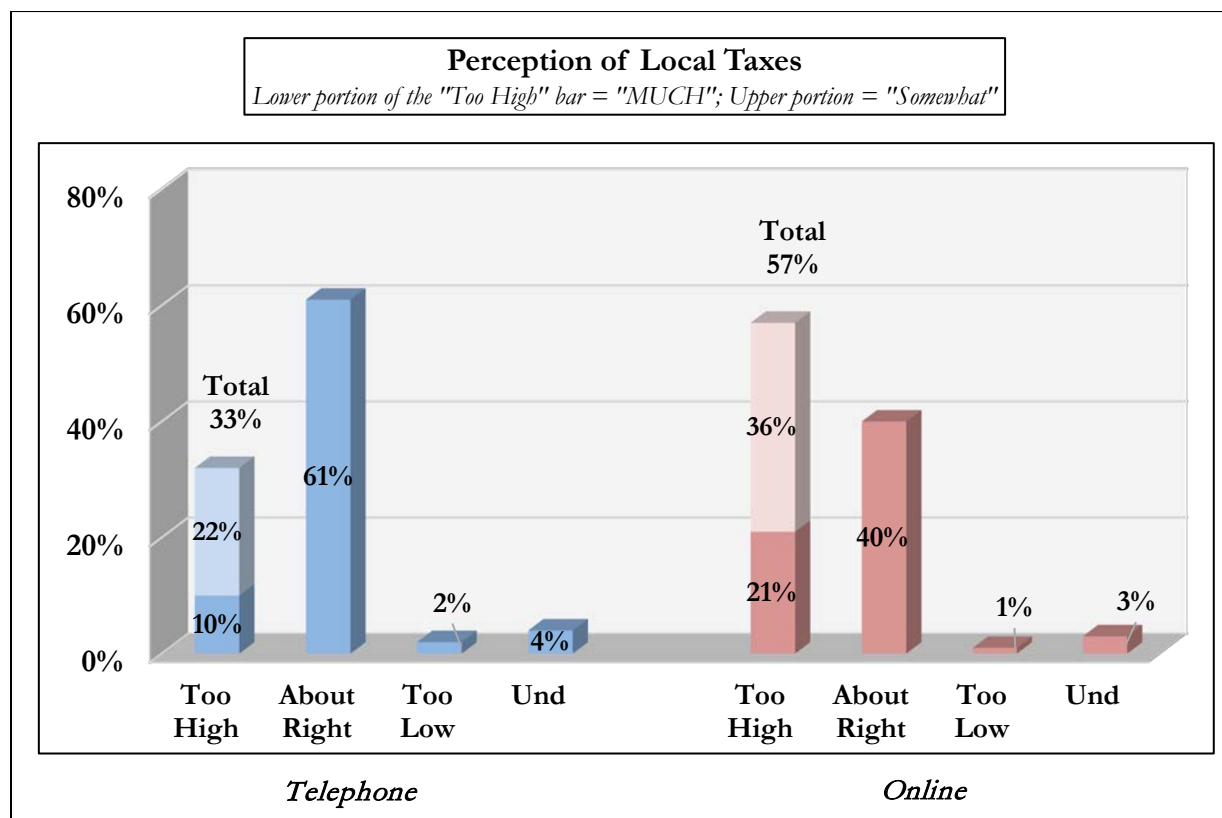

Online survey subgroups reporting “Negative” in proportions significantly higher than 23% included:

- 46% Twp. direction – Wrong track
- 40% Age 18-34
- 37% PDR renewal – No
- Age 18-49
- 36% Bay access – Top priority
- PDR renewal – Undecided
- Age 35-49

- 35% Info source – TV*
- 34% Employment – Full time
- 33% Twp. quality – Worsened
- Taxes – Too high
- 32% Info source – Word of mouth
- 31% PDR familiar – Little
- Tenure – 11-20 yrs.
- 30% Twp. direction – Undecided
- Open space event ban – Oppose
- 29% Relax winery limits – Support
- Storage regulations – Oppose
- * Small N-size

Value of Services for Taxes Paid – Q. 8

Respondents were asked if the taxes paid to their local unit of government were *Too High, Too Low, or About Right* for what they get back in services. For those reporting “Too High,” a follow-up question asked if they thought they were “Much” or “Somewhat” too high.

Telephone survey subgroups reporting “Too high” in proportions significantly higher than 33% total included:

- 53% Financial Management – Negative*
- 52% Twp. Quality – Worsened*
- 50% Age 50-64
- 46% Men 50+
- 44% Info source – Word of mouth

42% *Twp. Direction – Wrong track**
 40% *PDR renewal – No
 Men*
 39% *PDR familiar – Very
 Residence – In between*
** Small N-size*

Online survey subgroups reporting “Too high” in proportions significantly higher than 57% total included:

80% *PDR renewal – No*
 78% *Financial management – Negative*
 74% *Twp. direction – Wrong track*
 70% *Info source – TV**
 69% *Twp. Quality – Worsened*
 68% *PDR renewal – Undecided*
 67% *Employment – Full time
 Age 18-34*
 66% *Women 18-49*
 64% *Bay access – Top priority
 Residence – Mapleton north*
 63% *Current PDR? – Undecided
 Age 50-64
 Age 18-49*
 62% *Info source – Word of mouth
 Age 35-49*
 61% *Relax winery limits – Support
 Storage regulations – Oppose*
** Small N-size*

Preference Concerning Township Policy Direction – Q. 9

The next question asked respondents to choose which of two statements came closest to their view about the future direction of the township. One statement urged retention of the township’s fundamentally rural, undeveloped character even if that was at the cost of economic growth opportunities. The other statement option advocated for the need to expand economic growth opportunities and housing options even if it came at the expense of undeveloped acreage and increased service demands. The graph below illustrates the outcome in the respective surveys:

Telephone survey subgroups reporting “Growth” in proportions significantly higher than 8% included:

- 19% PDR Renewal – No
- 17% Twp. Quality – Improved*
- Relax winery limitations – Support
- 16% Winery growth – Support
- 15% Financial Management – Negative*
- 14% Town Center -- Support
- * Small N-size

Online survey subgroups reporting “Growth” in proportions significantly higher than 9% included:

- 24% PDR renewal – No
- 20% Children at home – Yes
- 18% Town Center – Support
- Age 35-49
- 17% Bay access – Top priority
- Relax winery limitations – Support
- 16% Employment – Full time
- 15% Info source – Website
- Women 18-49
- 14% Winery growth – Support
- Open space event ban – Oppose
- Storage regulation – Oppose
- Tenure – 11-20 yrs.
- Age 18-49
- 13% Utility easements – Important
- Men 18-49

Issue Priorities Qs. 10-19

Respondents were presented with a roster of ten broad issue areas and asked to report the level of importance they believed Peninsula Township should place on each. The possible

responses were *Top Priority*, *Important But Not a Top Priority*, and *Neutral* about whether the township should address the issue or *Not be Involved at All* in addressing the item. For analysis purposes, “Top priority” and “Important” are combined for a “Total Important” proportion.

“TOTAL” = Top Priority + Important		Rank	Top Priority	TOTAL Important	Neutral	Not Involved	DK/UND
Protecting the water quality of the bays	Phone	1	70%	92%	4%	3%	1%
	Online	3	63%	87%	9%	3%	1%
Preservation of the local agricultural economy	Phone	2	58%	92%	4%	4%	0%

More, Enough, Too much Qs. 20-30

Respondents were presented with a roster of eleven service areas local governments typically provide to residents. For each item, respondents were asked to report whether they believed Peninsula Township was doing *Enough* in that area, *Too Much*, or if it should do *More*. If *More* was selected, gradations of “Much” or “Somewhat” were offered to measure the level of intensity of that sentiment.

“TOTAL More” = Much + Somewhat		Rank	Much More	TOTAL MORE	Enough	Too Much	DK/UND

PDR Renewal “Vote” – Q. 33

All respondents were presented with a brief background history of Peninsula Township’s existing PDR plan, which ended by noting that the existing dedicated millage of 2 mills will expire in 2022. Respondents were then asked if they would vote “Yes” or “No” if a renewal election were held today. In the telephone interview, respondents who initially reported being “undecided” were given a follow-up option of indicating if they would “lean” one way or the other. In the online survey, the “lean” option was presented as an opening option for respondents

to record. The following graph illustrates the distribution of responses from the respective samplings:

Why Yes? – Q. 34

All respondents reporting *Yes* or *Lean Yes* in the prior “vote” on the PDR renewal were asked to identify which of four presented PDR goals was the single most important reason for supporting a renewal of the program. The presented goals were *To generally control growth and prevent traffic congestion*; *To preserve farmland*; *To protect water quality*; and, *To protect scenic views*. An option to volunteer a reason was also provided.

Number of Wineries in the Township – Q. 35

Respondents were informed of the growth in the number of wineries in the township over the past couple of decades and asked if they “Supported” or “Opposed” the continued development and growth of these types of establishments. For those expressing an opinion, a level of intensity was solicited by offering if their opinion was held *Strongly* or *Somewhat*. The following graph illustrates the distribution of responses:

Telephone survey subgroups reporting “Total Support” in proportions significantly higher than 35% total included:

Current Restrictions on Winery Activities – Q. 36

Respondents were next informed that, unlike neighboring jurisdictions, Peninsula Township restricts the type of activities and number of visitors wineries in its jurisdiction may host. They were then asked, irrespective of what they answered in the previous question, whether they would “Support” or “Oppose” relaxing the current restrictions. As before, intensity of sentiment was measured with the adverbs *Strongly* and *Somewhat*.

Telephone survey subgroups reporting “Total Support” in proportions significantly higher than 32% total included:

Management Policy of Mission Point Lighthouse – Q. 40

Respondents were presented with a brief statement about Mission Point Lighthouse, noting the high volume of visitors attracted annually and the fact that it is managed by the township. The statement asserted that the primary purpose of the township’s oversight is the restoration and maintenance of the lighthouse but added that it was also actively promoted as a tourist destination. Respondents were then asked how they would like the township to proceed, offering two statements: one urged a continuation of the current practice of coupling maintenance with tourist promotion and the other suggested muting the promotion efforts in favor of a focus on historical maintenance and restoration.

Preference Concerning Outdoor Storage – Q. 42

A statement asserting that, in the off-season, many township residents store docks, hoists, and recreation vehicles on the shore or near roadways was presented to respondents, noting that some consider this to be unsightly and in some cases hazardous. They were then asked if they would “Support” or “Oppose” an ordinance to regulate how these types of items are stored. As with other similar tests, a measurement of intensity of sentiment is offered with the gradations of *Strongly* and *Somewhat*.

Formal Non-motorized Transportation Plan – Q. 44

After being presented with a statement noting the regular presence of runners, bicyclists, and pedestrians on township thoroughfares; the comparatively narrow width of many area roads; and the adoption of non-motorized transportation policies in nearby jurisdictions, respondents were asked if they would “Support” or “Oppose” the township initiating the process of developing its own non-motorized transportation plan. Intensity of sentiment could be expressed via the option of *Strongly* or *Somewhat*.

Telephone survey subgroups reporting “Oppose” in proportions significantly higher than combined 17% total included:

Formal Non-motorized Transportation Plan Features – Qs. 45-47

After reporting on their sentiment toward a formal non-motorized transportation plan, respondents were presented with three possible components of such a plan and asked, irrespective of how they responded in the previous question, whether they believed that component would be *Essential*, *Important but Not Essential*, *[They Could] Take It or Leave It*, or *Do Not Include* as a part of any plan developed. For analysis purposes, the “Essential” and “Important but Not Essential” categories are combined to form a “Total Important” score.

“TOTAL” = Essential + Important		Rank	Essential	TOTAL Important	Take or Leave	Do Not Include	DK/UND
Installing pedestrian safety features at key locations such as pavement markings, signals, and signage	Phone	1	35%	63%	14%	19%	4%
	On-line	1	31%	66%	19%	13%	2%
Connecting park facilities with walking trails and bicycle paths	Phone	2	29%	62%	20%	16%	2%
	On-line	2	25%	65%	22%	12%	1%
Creating dedicated pedestrian routes for students to get to and from school	Phone	3	37%	57%	11%	28%	4%

Alternative Energy Systems – Q. 49

Respondents were presented with a statement noting the environmental benefits and increased popularity of wind and solar energy generation but also noting that many people object to the appearance of such alternative energy generation platforms and believe they diminish the appearance of the rural landscape. With these points serving as a basis upon which to consider the question, respondents were then asked which of three levels of alternative energy production

they believe would be appropriate for Peninsula Township. Response options allowed selection of any of the scales of energy generation operations, which were described as follows: *A system serving only the property on which it is located, Systems that serve multiple structures within a relatively small geographic area, and/or Utility scale systems integrated with a regional power grid.* Respondents could opt to select any or all the options offered; volunteered responses of “None of them” and “Depends on whether wind or solar” were also recorded.

APPENDIX

Dear Peninsula Township Resident:

Sequence #: _____

As part of its long-term planning, Peninsula Township has commissioned EPIC ▪ MRA, an independent Lansing-based survey research firm, to gather residents' opinions on a variety of questions, issues, and preferences.

In the upper right-hand corner of this survey please include the unique four-digit sequence number that can be found on the postcard that was mailed to you. This number is required to participate in the survey, which will remain open for participation through November 4, 2019. Note: each adult resident in the household may use the same four-digit number.

You may also access the survey online at www.peninsulatownship.com

or find the survey directly at

www.surveymonkey.com/r/PenTwp

EPIC ▪ MRA will analyze all the surveys and report the results to Peninsula Township by grouping responses into categories such as age and gender. No names or email addresses are required to participate, no one who participates can or will be identified, and no responses will be reported in a manner that can be attributed to any individual respondent.

In addition to this online survey, two hundred township residents were selected to participate in a phone survey. Residents who took the phone survey may also take the online/direct mail survey if they so desire. **To maintain survey integrity, we respectfully request that only one online survey be completed per adult resident in the household.**

Should you have any questions regarding this project, please call EPIC ▪ MRA at **517-886-0860**.

Thank you in advance for answering all survey questions to the best of your ability and for participating in this important project!

___ 01. Are you currently registered to vote in Peninsula Township?

- (1) Yes
- (2) No
- (3) Prefer not to answer

___ 02. Which of the following best describes your connection to Peninsula Township? Are you . .

- (1) A permanent resident;
- (2) A seasonal resident with a permanent residence outside the township;
- (3) Are you a non-resident owner of a business in the township; OR,
- (4) Other type of Twp. connection
(please specify:) _____
- (5) Prefer not to answer

___ 03. Overall, do you think Peninsula Township is headed in the right direction, or do you think it's going off on the wrong track?

- (1) Right direction
- (2) Wrong track
- (3) Prefer not to answer

___ 04. Thinking about the quality of life in Peninsula Township over the past few years, do you think things have

- | | |
|-----------------------------|------------------|
| (1) Gotten better | GO TO Q.6 |
| (2) Become worse | |
| (3) Remained about the same | GO TO Q.6 |
| (4) Prefer not to answer | GO TO Q.6 |

___ 05. What specifically is the single most important reason you think the quality of life in the township has become worse in recent years?

__06. Which of the following best captures what you **LIKE** the most about living in Peninsula Township?

- (01) Scenic views
- (02) Sense of community and belonging
- (03) The quality of our environment – the air and water
- (04) Recreational opportunities
- (05) Rural, quiet, atmosphere
- (06) Or something else (*please specify*):

- (99) Prefer not to answer

__07. Overall, how would you rate the job Peninsula Township is doing providing basic services to its residents? Would you give township government a positive rating of excellent or pretty good, or a negative rating of just fair or poor?

- (1) Excellent
- (2) Pretty good
- (3) Just fair
- (4) Poor
- (5) Prefer not to answer

__08. Thinking about the basic township services you receive from Peninsula Township in return for the taxes you pay to fund those services, do you think your taxes are too high, too low, or about right for what you get back in the form of services provided by the township?

- (1) Much too high
- (2) Somewhat too high
- (3) About right
- (4) Too low
- (5) Prefer not to answer

__09. Generally speaking, which of the following two statements comes closer to your view?

- (1) Our local government policies should be primarily focused on maintaining Peninsula Township's fundamentally rural, recreational and undeveloped character, even if that means limiting economic growth opportunities for current stakeholders and discouraging housing development options.
- (2) Our local government policies should be primarily focused on assisting economic growth opportunities for current stakeholders and expanding housing development options, even if that means a reduction in agricultural and undeveloped acreage and increased demand for township services.
- (3) Prefer not to answer

Peninsula Township will be faced with many issues in the next decade. Following is a list of various issues many residents believe are important. For each, please tell me whether you think that issue is a **Top Priority; Important** but not a top priority, You are **Neutral** about whether the township should address the issue; or, if the township should **Not Be Involved at All** with addressing the item.

		Top Priority	Important Not Top	Neutral	Not Involved	Undec/ Refuse
_10.	Managing development and growth.	(1)	(2)	(3)	(4)	(5)
_11.	Preservation of historic landmarks, architecture and native culture.	(1)	(2)	(3)	(4)	(5)
_12.	Protecting the Township's viewsheds of the bays, farmland and open spaces.	(1)	(2)	(3)	(4)	(5)
_13.	Preservation of natural shoreline.	(1)	(2)	(3)	(4)	(5)
_14.	Preservation of the local agricultural economy.	(1)	(2)	(3)	(4)	(5)
_15.	Intervention in the placement of public utility easements.	(1)	(2)	(3)	(4)	(5)
_16.	Addressing traffic volume.	(1)	(2)	(3)	(4)	(5)
_17.	Protecting the water quality of the bays.	(1)	(2)	(3)	(4)	(5)
_18.	Enhancing township parks.	(1)	(2)	(3)	(4)	(5)
_19.	Providing improved public access to the bays.	(1)	(2)	(3)	(4)	(5)

Now I would like to read to you a list of things communities typically provide for residents. For each item, please indicate if you think Peninsula Township is doing enough in that area, if you think too much is being done or if more should be done to address the issue. If you believe more should be done, please specify is that would be Much More, or just Somewhat more.

		Much More	Smwt More	Enough	Too Much	Und/ Ref
_20.	Accommodating demand for overnight tourist visits	(1)	(2)	(3)	(4)	(5)
_21.	Providing a variety of housing choices, including entry-level and retirement housing	(1)	(2)	(3)	(4)	(5)
_22.	Maintaining township parks and recreational facilities	(1)	(2)	(3)	(4)	(5)
_23.	Providing fair and accurate property tax assessments	(1)	(2)	(3)	(4)	(5)
_24.	Ensuring reliable emergency response and fire protection services	(1)	(2)	(3)	(4)	(5)
_25.	Availability of township-wide access to cable and high-speed internet	(1)	(2)	(3)	(4)	(5)
_26.	Keeping as much of the rural character and historic landscape as possible	(1)	(2)	(3)	(4)	(5)
_27.	Offering a wide range of recreational opportunities for residents of all ages	(1)	(2)	(3)	(4)	(5)
_28.	Zoning code enforcement	(1)	(2)	(3)	(4)	(5)
_29.	Cemetery upkeep and maintenance	(1)	(2)	(3)	(4)	(5)
_30.	Maintenance of township property	(1)	(2)	(3)	(4)	(5)

__31. Some local units of government have what are known as “purchase of development rights programs,” or PDR programs. PDR programs typically purchase development rights from a willing private landowner with public money, often from a millage levied for this purpose. Based on this description, to your knowledge, does Peninsula Township currently have a taxpayer-funded PDR program?

- (1) Yes
- (2) No
- (3) Prefer not to answer

__32. As you may already know, Peninsula Township has a tax-supported purchase of development rights program in place. Which of the following statements best describes how familiar you would say you are with the local PDR program?

- (1) I am completely aware of the Peninsula Township Purchase of Development Rights program and am quite familiar with its details
- (2) I am aware of the township's PDR program but I'm not that familiar with its details
- (3) I was only a little aware – mentioning it reminded me that I had heard about it before
- (4) This was the first time I have heard of the township's purchase of development rights program
- (5) Prefer not to answer

__33. Voters first approved Peninsula Township's purchase of development rights in 1992 and in 2002, voters again approved the PDR program and increased the dedicated tax levy to 2 mills for twenty years. With the current millage set to expire in 2022, would you vote Yes to renew the Purchase of Development Rights millage or would you vote No to oppose renewing it?

- (1) Yes
- (2) Lean Yes
- (3) No **GO TO Q.35**
- (4) Lean No **GO TO Q.35**
- (5) Prefer not to answer **GO TO Q.35**

__34. Which of the following PDR goals is the single most important reason you would vote, or lean toward voting, "yes"?

- (1) To generally control growth and prevent traffic congestion
- (2) To preserve farmland
- (3) To protect water quality
- (4) To protect scenic views
- (5) Other/More than one
- (6) Prefer not to answer

__35. A few decades ago, Old Mission Peninsula had no wineries. Today there are 11, 4 of which were established in the last 10 years, with inquiries being made about establishing new facilities. Based on this pattern of growth and your impressions of the positive or negative impacts wineries have had on the township overall, do you support or oppose the continued development and growth of local wineries as has occurred in recent years?

- (1) Strongly support
- (2) Somewhat support
- (3) Somewhat oppose
- (4) Strongly oppose
- (5) Prefer not to answer

__36. Currently, the township sets limitations on the type of activities wineries can host, and the number of participants. Elsewhere in the region, there are far fewer restrictions placed on the types of activities wineries may host. Regardless of how you responded to the prior question, would you support or oppose relaxing the limits on the types of activities and the number of visitors existing wineries in Peninsula Township can host?

- (1) Strongly support
- (2) Somewhat support
- (3) Somewhat oppose
- (4) Strongly oppose
- (5) Prefer not to answer

__37. Current Township regulation prohibits privately-owned rural open spaces, farms and farm buildings, and bed and breakfast establishments, to be rented for events – such as weddings and family reunions. Overall, do you support or oppose this existing township regulation?

- (1) Strongly support
- (2) Somewhat support
- (3) Somewhat oppose
- (4) Strongly oppose
- (5) Prefer not to answer

__38. For dwellings that are not authorized bed and breakfast establishments, Peninsula Township ordinance prohibits daily and weekly rentals. Overall, are you satisfied or dissatisfied with the current township policy concerning short-term rentals?

- (1) Very Satisfied
- (2) Somewhat Satisfied
- (3) Somewhat Dissatisfied
- (4) Very Dissatisfied
- (5) Prefer not to answer

__39. Regardless of how you answered the previous question, would you support or oppose relaxation of the township's current restriction on short-term rentals?

- (1) Strongly Support
- (2) Somewhat Support
- (3) Somewhat Oppose
- (4) Strongly Oppose
- (5) Prefer not to answer

__40. The Mission Point Lighthouse is managed by the township, and the site attracts tens of thousands of visitors annually from around the country and the world. While the primary purpose of the township's management is restoration of the lighthouse and its historical maintenance, the site is promoted as a tourist destination through the availability of tours, a gift shop and the lighthouse keeper program. Which of the following statements best describes how the township should manage this landmark in future years? Should the township ...

- (1) Continue the existing strategy of coupling historical maintenance and restoration of the site with tourist promotion.
- (2) Reduce the efforts aimed at tourism and center the focus on historical maintenance and restoration.
- (3) Prefer not to answer

__41. Existing Peninsula Township ordinance allows one dock and two boat hoists for every 50 feet of shoreline. However, this regulation is difficult to enforce and is sometimes ignored by owners of shorefront property. How important is it to you that the ordinance allowing only one dock and two boat hoists per 50 feet of shoreline be strictly enforced? Is it . . .

- (1) Extremely important
- (2) Moderately important
- (3) Of little importance
- (4) Not important to you at all
- (5) Prefer not to answer

__42. Many township residents store their boats, docks, hoists and recreational vehicles on the shore or near roads during the off-season. Some residents find this type of storage to be unsightly and in some cases, potentially dangerous. Would you support or oppose development of an ordinance to regulate the storage of boats, RVs, docks, and other similar equipment?

- (1) Strongly Support
- (2) Somewhat Support
- (3) Somewhat Oppose
- (4) Strongly Oppose
- (5) Prefer not to answer

__43. The township's current noise ordinance specifically excludes farm equipment but authorizes the county sheriff's office to issue citations for loud music, noisy animals, loud cars and raucous behavior occurring at inappropriate times or locations. Would you support or oppose expanding the township noise ordinance to specifically include other noise-producing activity such as the use of any motorized equipment— including lawn mowers, power saws, leaf blowers and other homeowner tools?

- (1) Strongly support
- (2) Somewhat support
- (3) Somewhat oppose
- (4) Strongly oppose
- (5) Prefer not to answer

__44. Bicyclists, runners, and pedestrians are regularly seen on roads throughout Peninsula Township. While some roads in the township have shoulders that can more easily accommodate non-motorized travel, many roads have very little, if anything, in the way of shoulders. Knowing that many nearby jurisdictions have adopted or are developing formal non-motorized transportation plans, would you support or oppose Peninsula Township starting a process to develop a non-motorized travel plan?

- (1) Strongly support
- (2) Somewhat support
- (3) Somewhat oppose
- (4) Strongly oppose
- (5) Prefer not to answer

Regardless of how you answered the previous question, below are several components that could be part of a non-motorized travel plan for Peninsula Township. For each item I mention, please tell me whether you think that item is: Essential, Important but Not Essential, You Could Take It or Leave It, or that feature Should Not Be Included if a non-motorized transportation plan were to be developed.

		Essential	Important but not Essential	Take it or Leave it	Do Not Include	No Answer
_45.	Creating dedicated pedestrian routes for students to get to and from school	(1)	(2)	(3)	(4)	(5)
_46.	Connecting park facilities with walking trails and bicycle paths	(1)	(2)	(3)	(4)	(5)
_47.	Installing pedestrian safety features at key locations such as pavement markings, signals and signage	(1)	(2)	(3)	(4)	(5)

__48. Past planning conversations in Peninsula Township have included the possibility of a small, mixed-use town center to provide a local place for consumer services such as barber shops, bakeries, and professional offices, with the possibility of residential apartments and/or condominiums on the second story above the storefronts. As currently envisioned, the center would be a private development with highly walkable design on 20 acres or less. Based on this brief description, and whatever else you may have seen, heard or read about a Town Center concept, do you support or oppose the idea of a town center for Peninsula Township?

- (1) Strongly support
- (2) Somewhat support
- (3) Somewhat oppose
- (4) Strongly oppose
- (5) Prefer not to answer

__49A-C. Alternative energy systems are becoming much more popular, especially as their cost becomes more competitive with less environmentally friendly energy sources. However, some think wind and/or solar facilities diminish the appearance of rural landscapes. Apart from individual systems serving the building it is located on, there are smaller wind and solar energy systems that can supply power to several buildings in a specific geographic area. There are also large utility scale systems that connect to the grid and generate enough energy for entire towns. Considering both the visual appearance and the environmental benefits of alternative energy systems, which of these types of systems do you think would be appropriate for development in Peninsula Township? **[PLEASE CODE ALL THAT APPLY]**

- (1) A system serving only the property it is located on
- (2) Utility scale systems integrated with the regional power grid
- (3) Systems that serve multiple structures within a relatively small geographic area
- (4) None of them
- (5) Depends on whether it's wind or solar
- (6) Prefer not to answer

__50A-B. Please indicate your top **TWO** sources of information that influences your opinions the most about Peninsula Township Government?

- (01) Old Mission Gazette
- (02) Traverse City Record-Eagle
- (03) Other local newspaper (*please specify*): _____
- (04) Radio
- (05) Television
- (06) The township newsletter, direct mail, notes/flyers, annual reports, etc.
- (07) Social media such as Facebook, Twitter, Etc.
- (08) The Township website
- (09) Township Employees
- (10) Township Trustees
- (11) General word-of-mouth
- (12) None; have no source of information
- (13) Other: (*please specify*): _____
- (99) Prefer not to answer

Finally, just a few questions for statistical purposes only.

__51. Do you have children who are school age or younger?

- (1) Yes
- (2) No
- (3) Prefer not to answer

__52. How would you describe your current employment situation?

- (1) Employed full time
- (2) Employed part time
- (3) Student
- (4) Homemaker
- (5) Disabled
- (6) Unemployed
- (7) Retired
- (8) Other
- (9) Prefer not to answer

__53. Is your primary residence located ...

- (1) North of Mapleton
- (2) Between Wilson and Mapleton
- (3) South of Wilson
- (4) Not a township resident
- (5) Prefer not to answer

__54. Could you please indicate in what year you were born?

[RECORD YEAR HERE ____ AND THEN CODE BELOW]

- (1) 18 to 34 years ----- **(1985 to 2001)**
- (2) 35 to 49 ----- **(1970 to 1984)**
- (3) 50 to 64 ----- **(1955 to 1969)**
- (4) 65 and over ----- **(1954 or before)**
- (5) Prefer not to answer

__55. What is the last grade or level of schooling you completed?

- (1) 1st to 11th Grade
- (2) High School Graduate
- (3) Non-college post high school (technical training)
- (4) Some college
- (5) College graduate
- (6) Post graduate school
- (7) Prefer not to answer

__56. For how many years have you lived in Peninsula Township?

- (1) 5 years or less
- (2) 6 to 10 years
- (3) 11 to 20 years
- (4) Over 20 years
- (5) Not a township resident (**volunteered**)
- (6) Prefer not to answer

__57. Please indicate your gender.

- (1) Male
- (2) Female

Is there anything else you would like to share with the township?

THANK YOU VERY MUCH FOR YOUR TIME AND PARTICIPATION!
